

2022 WUMP Summary of Changes

1.3 Definitions

Updated Drought response, Program Administrator, and Residential definitions.

2.1

Clarification to include verbiage that is already used in the Water Wiser program application (each participant must sign the application before participation is complete): One of the primary educational opportunities for residential customers is the Water Wiser workshop. This program focuses on landscape preparation, efficient irrigation, water management, and indoor efficiency. The goal of the Water Wiser program is to provide the tools necessary to maintain a healthy landscape, while using less water. After completion of this workshop, residents are exempt from the every-third-day watering schedule. This exemption provides residents with the opportunity to take advantage of the weather and water only when necessary, not just because it's their scheduled watering day. Water consumption may be tracked through utility bills and program participants are expected to adhere to the program. The Town, at its discretion, reserves the right to return Water Wiser participants to the every-third-day watering schedule, at which time participants will be subject to enforcement as provided in the Town Municipal Code and Water Use Management Plan.

3.2.1.3.d/e:

Combined d. "The watering schedule shall be published on CRconserve.com and in the official notice section of CRgov.com/notices." with e. "The watering schedule and a general outline of the policy on the Town's website." To now read "The watering schedule and the general outline of the policy shall be published on CRconserve.com and in the official notice section of CRgov.com/notices."

3.2.2.3

Clarified "Application Rates: Total water application, during peak summer temperatures, shall not exceed one and one-half (1 ½) inches per week, per irrigation zone. Irrigation application during cooler spring and fall months shall be seasonally adjusted to lower levels."

3.3.1.7

Removed "Special Schedules for Non-Residential Properties: Special schedules for non-residential

properties may be granted based on a demonstrated hardship at the discretion of the Program Administrator. Castle Rock Water registered landscape contractors shall implement special schedules. See Section 2 of the Landscape and Irrigation Criteria Manual for information regarding registration of landscape professionals.”

3.3.1.7.a

Removed the special schedule option for residential customers that are “going on vacation.”

3.4.5.2

Removed “Town may request owner/operator of facility to obtain a letter from the Tri-County Health Department requiring cleaning of prescribed areas. A copy of such shall be submitted to Castle Rock Water, and a copy shall be posted on-site.”

3.4.5.3

Removed “by homeowners”.

3.4.8.1.a

(Residential) Added “It is the responsibility of the account holder to ensure all irrigation system components are properly maintained and fully operational. This includes but is not limited to replacement of batteries in controllers and rain sensors.”

3.4.8.2.a

(Non-residential) Added “It is the responsibility of the account holder to ensure all irrigation system components are properly maintained and fully operational. This includes but is not limited to flow sensors, master valves, and replacement of batteries in controllers and rain sensors.”
