Acrylic Painting, *Illuminated Steps*

Dear Art Committee,

Attached you'll find a group proposal for the garage banner project. We are five local artist who live and work in the Castle Rock. The group gathered together to create a breath of diversity of imagery ranging from representational to abstract. We considered your objectives of charm, community, and vibrancy. In addition, seasonal colors were given a priority to reflect the months on display. Thank you for your consideration.

Images from each artist follow.

Subject: Artwork for Parking Garage Banner 2/2

Hi Maia,
I'm attaching my second submission for the "Two-Dimensional Artwork for Parking Garage Banner Design"

Artist - Talia Johns

Residence - Littleton, Colorado

Title - Hummingbirds

Description - Hummingbirds often thought of as mysterious and exotic and we are lucky to have them here in Colorado. My hope was to bring awareness to their endangered habitat, highlight their beauty and unique flight ability.

This is digital vector based original artwork. It can be scaled to any size without losing the printing quality. It's intentionally designed to look real and abstract simultaneously. Text and graphics are added as a mockup example and can be changed and/or removed. Larger file will be provided.

Tank you,
Talia
