LETTER FROM THE CHAIR

As I put this report together, I cannot help repeating the Castle Rock Chamber of Commerce's Mission:

- To support, encourage and promote member businesses in our community;
- To be a "voice" for businesses to local and regional government and "Serving Douglas County"; and
- To foster a livable, vital community where quality of life and positive growth are both possible.

Our goal, in 2015, was to focus on promoting the Castle Rock community through our events, creating a "Sense of Place". Castle Rock traditions like Starlighting, Artfest, WineFest, the Douglas County Fair Parade, Elephant Rock Ride and the Healthy Lifestyle Expo continue to be events the community looks forward to and values. The question was how do we enhance these events to continue to create enthusiasm and excitement resulting in greater attendance and participation? These events continue to create the "home-town feel" attracting businesses and residents to Castle Rock.

Starlighting was an event enhanced in 2014 with the addition of a beautiful new Christmas tree in Festival Park, increased lighting and decorations downtown, and an expanded sound system to name a few. In 2015, we saw our tree grow another 10 feet and our lighting and decorations increased in scope.

Artfest celebrated its 26th year as a juried event. A benefit of this event is the celebration of culture with the visual and performing arts by our residents and visitors and to increase

the economic impact to our community. We had an increase in artist participation and numerous interactive activities creating a buzz throughout the weekend event. We will continue to amaze and surprise the Castle Rock community in the coming years.

As we transition into 2016, we look to the levers we should examine in the continued desire to remain relevant and attract a diverse population wanting to gather and belong to the Castle Rock community.

Words cannot possibly represent what an honor it has been to serve as your Chairwoman for the 2015/2016 Chamber of Commerce Board of Directors. I look forward to the continued privilege of working with Pam Ridler and her exceptional staff leading us in to another fantastic year and the future.

I would like to extend a special thank you to the Chamber members serving tirelessly on the board, committees, and task forces. Kudos to our Ambassadors representing our wonderful business community, as well as all those who volunteer and contribute in so many other ways.

THE REGIONS' BEST BUSINESS NETWORK SINCE 1955

A MESSAGE FROM THE CHAMBER PRESIDENT/CEO

In 2015 the Chamber celebrated 60 years of helping to facilitate community leadership and creating economic prosperity. As Castle Rock enjoys unprecedented success, we'll continue to maintain our focus on the things that keep our community moving forward.

In the year ahead, we will concentrate on our five core competencies:

- Creating a Strong Local Economy
- Promoting the Community through local awareness and tourism
- Encouraging future community engagement, education and leadership development
- Building business relationships
- Representing the interests of business to government and political action

Three of our major accomplishments this past year have been:

1. Implementation of our new software that enabled us to offer our membership many exciting features that will aid them in enhancing their business. This software allows them to create stronger online presence for their business, as well as advertise job opportunities and work with other businesses to secure job bids all at their fingertips. These services that were implemented in August have seen banner results with a 633% increase in traffic in just four months.
2. Third Tech Tuesdays coupled with our new software has given our business community an even greater ability to learn and dig deeper with all the social media opportunities that they are able to harness. Nothing is more frustrating than having a tool but not the training to realize the impact for your business. The chambers trainings unlock that potential for all our businesses!
3. We enjoyed this past summer meeting and educating visitors and new residents to Castle Rock at our Visitors Center. We expanded our hours on Saturdays from Memorial Day to Labor Day from 10 a.m. to 2 p.m. This program offers another way for community members to volunteer their time and talent welcoming new faces seeking information about our great town!

These are just a few ways the Castle Rock Chamber and Visitor Center used our core competencies to guide our continued dedication to the growth of one of the most vibrant communities and business climates in the region. We are proud to create opportunities for you to belong, engage and prosper.
