

PETITION TO STOP THE COBBLESTONE RANCH SPORTS PARK AND COMPLEX

We, the undersigned, are concerned citizens who urge our leaders to act now to stop the development of the proposed sports park and complex in the Cobblestone Ranch neighborhood.

This SPORTS PARK would be a travesty for our neighborhood on so many levels. Currently, Highway 83 is backed up daily during high traffic times because of the fact that it is a two lane road and does not support all of the traffic from Bayou Gulch down to Highway 86. It would be an absolute nightmare to contend with on the weekends if this sports park was allowed to be built. Not to mention that the entrance and exit to our neighborhood would be backed up and at a stand still all the way to the round-about throughout the weekends and even entire weeks when there is a national tournament being played. Our neighborhood is not the place for a park of this magnitude. We do not want it here, and the fact that a baseball club is willing to finance it is even more of a problem. This is not what we were promised when we approved the current park that is under construction. We do not want baseball/softball tournaments in our neighborhood every weekend through the spring, summer and fall months. We are very well aware of what becomes of a neighborhood that allows sports parks to be built in them. Beyond the traffic concern, we will have noise and light pollution, RV's camped out for the weekend and sometimes the entire week during a national tournament, trash, increased crime and a decrease in our property values. This proposed park will cause us all to take a huge hit on our home values. Our neighborhood is NOT the place to build this baseball/softball complex plus an indoor facility of 30,000 square feet. This doesn't belong here and it will be a devastating loss to us all if it is permitted.

This proposed park will cause us all to take a huge hit on our home values. Our neighborhood is NOT the place to build this baseball/softball complex plus an indoor facility of 30,000 square feet. This doesn't belong here and it will be a devastating loss to us all if it is permitted.

PETITION TO STOP THE COBBLESTONE RANCH SPORTS PARK AND COMPLEX

We, the undersigned, are concerned citizens who urge our leaders to act now to stop the development of the proposed sports park and complex in the Cobblestone Ranch neighborhood.

This SPORTS PARK would be a travesty for our neighborhood on so many levels. Currently, Highway 83 is backed up daily during high traffic times because of the fact that it is a two lane road and does not support all of the traffic from Bayou Gulch down to Highway 86. It would be an absolute nightmare to contend with on the weekends if this sports park was allowed to be built. Not to mention that the entrance and exit to our neighborhood would be backed up and at a stand still all the way to the round-about throughout the weekends and even entire weeks when there is a national tournament being played. Our neighborhood is not the place for a park of this magnitude. We do not want it here, and the fact that a baseball club is willing to finance it is even more of a problem. This is not what we were promised when we approved the current park that is under construction. We do not want baseball/softball tournaments in our neighborhood every weekend through the spring, summer and fall months. We are very well aware of what becomes of a neighborhood that allows sports parks to be built in them. Beyond the traffic concern, we will have noise and light pollution, RV's camped out for the weekend and sometimes the entire week during a national tournament, trash, increased crime and a decrease in our property values. This proposed park will cause us all to take a huge hit on our home values. Our neighborhood is NOT the place to build this baseball/softball complex plus an indoor facility of 30,000 square feet. This doesn't belong here and it will be a devastating loss to us all if it is permitted.

We are very well aware of what becomes of a neighborhood that allows sports parks to be built in them. Beyond the traffic concern, we will have noise and light pollution, RV's camped out for the weekend and sometimes the entire week during a national tournament, trash, increased crime and a decrease in our property values. This proposed park will cause us all to take a huge hit on our home values. Our neighborhood is NOT the place to build this baseball/softball complex plus an indoor facility of 30,000 square feet. This doesn't belong here and it will be a devastating loss to us all if it is permitted.

PETITION TO STOP THE COBBLESTONE RANCH SPORTS PARK AND COMPLEX

We, the undersigned, are concerned citizens who urge our leaders to act now to stop the development of the proposed sports park and complex in the Cobblestone Ranch neighborhood.

This SPORTS PARK would be a travesty for our neighborhood on so many levels. Currently, Highway 83 is backed up daily during high traffic times because of the fact that it is a two lane road and does not support all of the traffic from Bayou Gulch down to Highway 86. It would be an absolute nightmare to contend with on the weekends if this sports park was allowed to be built. Not to mention that the entrance and exit to our neighborhood would be backed up and at a stand still all the way to the round-about throughout the weekends and even entire weeks when there is a national tournament being played. Our neighborhood is not the place for a park of this magnitude. We do not want it here, and the fact that a baseball club is willing to finance it is even more of a problem. This is not what we were promised when we approved the current park that is under construction. We do not want baseball/softball tournaments in our neighborhood every weekend through the spring, summer and fall months. We are very well aware of what becomes of a neighborhood that allows sports parks to be built in them. Beyond the traffic concern, we will have noise and light pollution, RV's camped out for the weekend and sometimes the entire week during a national tournament, trash, increased crime and a decrease in our property values. This proposed park will cause us all to take a huge hit on our home values. Our neighborhood is NOT the place to build this baseball/softball complex plus an indoor facility of 30,000 square feet. This doesn't belong here and it will be a devastating loss to us all if it is permitted.

[Stop the Cobblestone Ranch Sports Complex](#) started this petition to Cobblestone

Ranch and 3 others

This SPORTS PARK would be a travesty for our neighborhood on so many levels. Currently Highway 83 is backed up daily during high traffic times due to the fact it is a 2-lane road and does not currently support all of the traffic from Bayou Gulch down to Hwy 86. It would be an absolute nightmare to contend with on the weekends if this sports park is allowed to be built. During National Tournaments, the entrance and exit to Cobblestone Ranch would become backed up all the way to the round-about. Cobblestone Ranch is not the place for a park of this magnitude. We do not want it here, and the fact that a baseball club is willing to finance it is even more of a problem. This is not what we were promised when we approved the current park that is under construction. We do not want baseball/softball tournaments in our neighborhood every weekend through the spring, summer and fall months. Beyond the traffic concern, residents will have to deal with noise and light pollution, RVs camped out during tournaments, trash, increased crime, and a potential decrease in property values. Cobblestone Ranch is NOT the place to build this complex (which includes a 30,000 square foot indoor facility) or any other sports complex of this magnitude. This does not belong in the proposed location and will be a devastating loss to residents if permitted.

Comment

"This park is not at all what was promised"

"I'm signing this because corporate greed has gotten out of control. Everything for for profit leaving the public with little free access areas. Stop buying the land for profits."

"This "partnership" does not support the community in any way. The only people that will see any benefit from this are the owners of CCB. This area was intended to be and portrayed to the community as a public park. Having tournaments on weekends and allowing some city leagues to play during the week means even the Phase 1 amenities won't be able to be used by most families due to the amount of traffic and people those tournaments will bring. The neighborhood of Cobblestone Ranch does not support this proposal and does not want this type of baseball facility here. This location does not provide easy access to any hotels or restaurants in Castle Rock. The road infrastructure already has a hard enough time supporting the nearby fall festival for 2 months out of the year which does not draw anywhere near the amount of people a single tournament will draw. I call in to question the ability of CCB to complete the proposal and to support the community in any way. This reeks of a back alley deal between CCB and the t"

"I'm signing because this isn't what we agreed to and I live backed up to this land. I do not want light, noise, traffic and parking to destroy the value of my home and peace of mind."

"This is not what we were told was to be built. It appears some type backroom deal was made without input from the residents who would be affected. Our neighborhood cannot support the volume of traffic this would bring."

"Castle Rock completely did a 180, this was supposed to be a community park with a pond, bike track, soccer field and other great amenities. Now all of a sudden the town can't afford to build the original park which means the residents mil levy payments have been misallocated and our park was sold to commercial interests. A privatized ball park of this magnitude needs to be located in a commercial area that has the infrastructure around it that can handle the traffic and parking this would bring along with it."

"Original plan was best for the community!"

"I love my small town of castle rock and want to keep it that way. I have lived here since 2006 and beyond disappointed with all the new building. Why build if you don't have the money to finish! Welcome to California I mean castle rock!"

"This park is not at all what we signed up for. Our community cannot handle this and I am completely against it."

"I am a Cobblestone homeowner and don't think this will benefit our community"

"This neighborhood was promised a regional community park, not a sports complex run by a third-party organization."

"The plans that we have recently been made aware of differ wildly from those initially projected for this park. Including sports facilities of this size and nature so close to our community will give most of this park up to an outside organization and create incredible traffic problems in and out of Cobblestone Ranch. While this park is meant for all residents of Castle Rock, including these facilities will only detrimentally affect those of us who live so close to it in Cobblestone Ranch. It is absolutely unacceptable."

"This goes against what the community wanted and the streets are not equipped for the amount of traffic this would bring"

"Want a rec center for people who love in castle rock, not out of town traffic due to baseball games."

"I supported the original proposal, but not the huge sports complex run by the private organization."

"I don't agree with the proposed changes to the park or to privatizing it."

"I absolutely am against this Sports Complex due to the traffic, noise and light pollution it will bring to our small community."

"We were looking forward to a large community park on our side of town, not a baseball complex that we won't be using. This is an easy no, thinking solely about the traffic this would cause in Cobblestone Ranch and Terrain ."

"#fuckyourprivatepark"

"I don't want all that traffic coming through my neighborhood"

"I want a beautiful multi-use park for my children."

"this was not was was presented to the homeowners, this will create a traffic nightmare"

"Hoe did the city all the sudden run out of money? That's the big question. What is going on in Douglas county?"

"This complex is not an appropriate one for the size of the neighborhoods."

"This will negatively affect my property value and undermine the reason we moved here."

"A large"
