243	"Public art" for the last few decades has largely embraced monuments to meaninglessness--ugly abstractions that do nothing to help the people of the city express why where we live is the BEST place to live. Public art should express the virtues the city holds dear--courage, charity, kindness, eternal beauty, the quest for knowledge, exploration, natural wonders, and transcendence. Public art in and of itself cannot create civic pride--it can only reflect the values the city holds, or at least those who make the decisions about what art to display. And in answer to the next question, it depends. Public art has the potential to add value to communities, but it rarely succeeds. Just look at "Tribal Jam" at the Metzler Ranch Skate park. How is it supposed to create public pride of place? It mocks both the beauty of the human person and tribal affinities.	10/16/2020 2:58 PM

74	I don't believe that it available to all communities. To different cities or towns. I believe it is limited. I believe that be able to be exposed to different forms of art is a gift. Art comes in many different forms ie. paintings, photography, woodworking, jewelry, multimedia and so much more. Allowing varieties allows people the oppurtunity to see more than one form, to see outside of the box per say. I also being able to keep it local and put on display art from local artists within the city, town or state adds more. It is more personal and that is where more value comes from I believe.	11/17/2020 9:47 PM

87	Shared appreciation	11/17/2020 8:15 PM
88	I love taking the grand children to Loveland to see the sculpture parks, red rocks for concerts etc. A place that is unique, beautiful and fun. We need a place where creative people want to come. Sharing ideas, gifts and talents whether artistic, musical etc creates an atmosphere of love and home.	11/17/2020 7:58 PM
89	I think aesthetics can be pleasing and eye-catching but sometimes art displayed is just weird like the random sculptures scattered throughout Colorado Springs or like a joke like Blucifer. Please don't waste money on random sculptures.	11/17/2020 7:49 PM

104	It provides an attraction to the community and visitors. It shows what's important to the community. It provides a bit of happiness when we need it most.	11/17/2020 7:01 PM
105	In Butterfield park there is a platform where art usually stands. People notice when there is nothing and wonder when something will return. It is missed when it is gone. Therefore it enhances the community experience and gives way to conversation while out in public.	11/17/2020 6:57 PM
106	Kids are exposed to art this way	11/17/2020 6:56 PM
107	I think showcasing art that is specific to a different community but tying it into a festival to get people to buy in who wouldn't go if it was only an art walk helps bridge those gaps.	11/17/2020 6:52 PM
108	It brings beauty to the community. Just like people like a beautiful view they enjoy the beauty of art.	11/17/2020 6:50 PM

93	My favorite is something I would love to see here in Castle Rock. In RacineWI shops and organizations or individual artists agree on one certain sculpture and each paint or decorate it in a unique way. For example one year it was a bear statue. The town then makes a map of where each bear can be seen. We would go in a scavenger hunt of sorts to find each statue. This helped us at the same time notice shops and businesses we had previously over looked. At the end of a few months they would auction off the statues (unless the artists chose to keep them). The money went towards the town. And by sponsoring the artist the business got advertising. We did that for three summers straight and it was a highlight for us	11/17/2020 7:27 PM

41	Public and private partnerships. The Town has to have money in the game as does the community in general, meaning both taxpayer funds and private contributions from both citizens and organizations. It is key to have a good vehicle in place to provide for long-term maintenance and repairs, this should not be a parks department or other government entity - different administrations have different priorities. A not-for-profit can be set up with curation duties. The land should either be public land or private land with an easement. If the land is private, there needs to be a method for the landowner to not be taxed on the value of the improvement if a public easement is granted, otherwise there is a disincentive to develop art spaces.	11/18/2020 12:51 PM
