## FROM THE DESK OF THE CRIME ANALYST

### SCARE TACTIC CALLS

We have seen multiple reports on *suspicious calls* stating they are from the “IRS” or local police departments. These callers claim that you are late on paying back taxes or that you have a warrant for your arrest. The caller on the other end of the line is a very good scam artist. These calls continue because they have been successful. The scammer typically requests information to your bank account or instructs you to send them a MoneyGram.

The IRS and police departments will **not** call you for taxes owed or warrants. There would be actual documentation from the IRS or police, and you would have a timeframe to pay. These scammers usually are quick and want the money immediately. If you ever have any question about the caller, contact the appropriate number below.

- Castle Rock Police Department:** 303-663-6100
- Douglas County Sheriff’s Office:** 303-660-7505
- U.S. Department of Treasury:** 202- 622-2000
- IRS:** 303-446-1675

You may also put a stop to the scare tactic calls by using call blocking systems that are available. Some are free of cost and others may include a fee.

- A) VoIP Technology Users** - Nomorobo is a service that runs through Internet-connected phone systems. It stops unwanted calls by filtering out numbers placed on the blacklists. Nomorobo was the winner of a national contest sponsored by the Federal Trade Commission in 2013 to stop unwanted calls. To find out if your phone carrier supports this technology and/or to sign up for their services, go to [www.nomorobo.com](http://www.nomorobo.com).
- B) Wireless (mobile) phone users** - Unwanted calls that come through cellular phones can be screened out through downloadable apps developed for just this purpose. To avoid possible malware infection, make certain the app you select comes from a reliable source, such as an official app store.
- C) Land-line users** - Land-line phones presently do not have the capability to utilize filtering systems such as Nomorobo. However, call-blocking devices can be purchased and attached to phones to detect unwanted calls while still allowing calls from acceptable callers to come through. Such devices may be beneficial to land-line users to protect against predatory callers. For more information, read Consumer Reports reviews on call-block devices at [www.consumerreports.org](http://www.consumerreports.org), or search Call Blocker Devices online.

Since the cost of such “fixes” are likely to be absorbed by the consumer, the Federal Communications Commission recently clarified that phone carriers would not be in violation of federal laws by screening out unwanted phone calls for their customers. Consumers should check to see if their phone company will provide this service free, and they may continue to report unwanted calls to the FTC at [www.donotcall.gov](http://www.donotcall.gov) or call 1-877-382-4357. and to the Castle Rock police for looking for ways to serve

and protect us. Other than a few snow drifts inside the garage everything was fine and I appreciate the notice. Thank you for all that you do.

**A**bout a month ago my elderly father got lost and ended up in Castle Rock (he missed his I-25 exit). He was fortunate enough to meet one of your officers (Troy?) [Stembel] at the Circle K. Troy called me and stayed with my dad until I arrived. He was very kind and professional and I just want to say “THANKS!” Please know that all of you are greatly appreciated.
