

Summary of Proposed Changes to the Water Use Management Plan 2024

Water Use Management Plan amendment Location	Addition(s)	Removal(s)	Reasoning
1.3 Definitions	Irrigation Exemption: An exemption to the watering schedule to help establish new plant material. The exemptions are not to exceed 21 days for sod and 30 days for seed establishment.		Irrigation Exemption was added to the definition of terms section to define the concept and application.
1.3 Definitions	"Water" was added to the title position, Water Monitor		This definition was added to formalize the title of a Water Monitor.
3.4.9 Water Waste, 7	The words "or directly after" were added to the sentence "Irrigation during or directly after a storm event".		As an effort to prevent water waste, it was noted that supplemental irrigation is not needed directly after a rain event.
3.5 Enforcement	Section 3.5.4 was directly referenced		This reference was made to refer readers to the violation/surcharge fee table
13.15.080 Restrictive covenants	Natural grass varieties	Hybridized grasses	This terminology was altered for better clarity.
Example Residential Communication	The words "conservation and" were added to the sentence, "Castle Rock incorporated water use management guidelines to help create a community culture that embraces water conservation and efficiency."		This addition was made as part of Castle Rock Water's ongoing efforts toward educating the public on conservation.
Watering hours	The words "are usually at their lowest" were added.	"there is a reduction in.."	Wordage was amended to improve the flow of the sentence.
