A message from
Chief of Police
Jack Cauley

Castle Rock continues to be one of the safest and fastest-growing communities in the country. To achieve this, we build upon our One-By-One Policing philosophy through our three strategic pillars:

People: We invest in our team members by providing quality training and the best equipment available. We are laser-focused on creating a healthy organizational culture where our members can thrive.

Innovation: The ability to innovate is key. We embrace the latest technology and best practices to solve problems and address crime.

Community: Policing is a team effort. Creating safe communities must involve trust and partnerships. We are grateful for Castle Rock's support and don't take it for granted.

CRPD advances innovation, community engagement and national leadership in October

- CRPD welcomed K9 Riddick, a 22-month-old German Shepherd who is dual-certified in narcotics detection and patrol work. His handler is Officer Casey Beatty. Officer Beatty and Riddick will support our officers as members of the Strategic Response Team.
- On October 16, CRPD and Flock Safety held a press conference highlighting the Drones as First Responders program and its impact on public safety.
- Chief Cauley and Command staff attended the annual IACP Conference in Denver, where Chief Cauley presented on "The Infinite Game of Policing" and "Using AI in Candidate Selection, Promotions, and Annual Reviews." The conference drew an attendance of over 16,000 law enforcement and industry professionals.
- At the IACP Conference, CRPD and Flock Safety also stood up a Real-Time Crime Center, which was very well attended and received strong interest from attendees.
- CRPD partnered with the DEA to host a Drug Take Back event on October 25, where community members safely disposed of 198 lbs. of unused, unwanted, and expired medications.

The Lethality Assessment Program (LAP) tool is designed to reduce risks, save lives and involves an assessment by policing personnel to determine risks in collaboration with community-based victim service providers. More information can be found at LethalityAssessmentProgram.org.
