

PIPELINE RIGHT-OF-WAY GRANT

FOR AND IN CONSIDERATION OF THE SUM OF Twenty One Thousand, One Hundred Sixty Three and 50/100 **DOLLARS** (\$21,163.50) for the pipeline to be constructed under the terms hereof, to be paid upon execution of this Pipeline Right-of-Way Grant.

I/WE,

Town of Castle Rock, a Colorado municipal corporation, acting by and through the
Town of Castle Rock Water Enterprise
100 Wilcox Street
Castle Rock, Colorado 80104

hereinafter referred to as “Grantor” (whether one or more) does hereby grant, sell, convey, and warrant to Cureton Midstream, LLC, a Texas Limited Liability Company, whose address is 1550 Larimer Street, Suite 266, Denver, Colorado 80202, its successors and assigns, hereinafter referred to as “Grantee”, the right, privilege and non-exclusive easement of Fifty (50) feet in width for a temporary construction easement for initial construction for this pipeline only and a permanent non-exclusive Twenty (20) feet in width, for the purpose of one (1) single pipeline and from time to time, operating, inspecting, maintaining, protecting, repairing, replacing, and removing a single pipeline or other appurtenances, for the transportation of oil, gas, petroleum products, water, and any products and derivatives of any of the foregoing, and any combinations and mixtures of any of the foregoing, upon and along a route through the following described land located in **WELD** County, State of **COLORADO**, to wit:

Township 1 North, Range 65 West, 6th P.M.
Section 25: Being part of the SE/4
Weld County, Colorado

Said temporary construction easement and permanent non-exclusive pipeline easement being more particularly described on Exhibit “A” attached hereto and made a part hereof (the “Easement Property”).

Together with the right of ingress and egress to and from said pipeline, on, over, and across said land and adjacent land of Grantor.

It is agreed that the pipeline to be laid under this grant shall be constructed a minimum depth of forty-eight (48) inches below the surface of the ground to permit normal cultivation at the time of construction, and Grantor shall have the right to fully use and enjoy the above described premises subject to the rights herein granted. The final location of the pipeline shall be clearly marked utilizing carsonite posts at the entrance and exit of the Town’s property and every 500 lineal feet along the pipeline route.

Grantee shall design and construct pipeline in conformance with 49 CFR 192 and ASME B31.8 and follow all safety requirements contained therein.

Grantee agrees to reclaim those lands disturbed during construction as nearly as practicable to its original condition and reseed the same as soon as possible. Upon completion of the pipeline installation and reseeded activates, said temporary construction easement shall terminate.

In the event Grantor, as part of its development of its facilities located on Grantor's property, determines that it is necessary to relocate the pipeline in order to accommodate municipal water facilities. Grantor shall provide Grantee with an alternative easement location reasonably acceptable to Grantee on Grantor's property and Grantee shall relocate its line, at its sole expense.

Grantee shall have the right to clear all trees, undergrowth and other obstructions from the herein granted permanent right-of-way, and Grantor agrees not to build, construct or create any buildings, structures or engineering works on the herein granted right-of-way that will interfere with the normal operation and maintenance of said line.

Except in the event of an emergency, Grantee shall provide Grantor with 48-hours notice prior to entering onto Grantor's property to access the Easement Property. In addition, Grantee shall maintain access to Grantor's property at all times during construction, reconstruction and maintenance of the pipeline.

Grantee shall operate and maintain the pipeline in compliance with all federal, state and local regulations and in accordance with all industry standards. Grantee shall properly remediate any hazardous material or other environmental contaminants introduced into the ground as a result of operation or the pipeline. In the event of a pipeline failure, any clean up and/or mitigation shall be performed in compliance with all applicable federal, state and local laws and regulations, at no cost to Grantor.

Grantee agrees to pay to the owners and to any tenant, as their interests may be, any and all damages to crops, timber, fences, drain tile, or other improvements on said premises that may arise from the exercise of the rights herein granted; provided, however, that after the pipeline has been constructed hereunder, Grantee shall not be liable for damages caused on the easement by keeping said easement clear of trees, undergrowth, and brush in the exercise of the rights herein granted. Any payment due hereunder may be made direct to the said Grantor or any one of them. If the property is leased, Grantee will settle actual damages with the tenant.

In the event the pipelines herein provided for shall be abandoned or inactive for one (1) calendar year, this easement shall become null and void; provided that the abandonment for non-use is not the direct result of war, Acts of God, rules or regulations promulgated by any government body, federal or state having jurisdiction thereof. Should Cureton discontinue the use of its entire pipeline within or a portion of the Easement Property granted for (12) consecutive months, Cureton agrees to take all actions necessary to render the pipeline environmentally safe and fit for abandonment in place. All such cleanup and mitigation shall be performed in compliance with all applicable federal, state and local laws and regulations. Cureton further agrees to hold Grantor harmless and indemnify Grantor from any environmental risks associated with abandonment of the pipeline, now or in the future. Upon completion of the pipeline abandonment in place, Cureton will execute and deliver to Grantor in a timely manner a Release of Right of Way Grant for the portion of the Right of Way lands so abandoned.

Grantee further agrees that, if at any time, the pipeline settles or causes any settling in the area of the pipeline, it will make all necessary repairs at Grantee's sole cost and expense and pay damages to crops within a reasonable period of time.

Grantee shall have the sole obligation to maintain the pipeline and shall otherwise assume and be solely responsible for any and all liabilities and obligations associated with the ownership, operation, maintenance and repair of the pipeline. Grantee shall indemnify Grantor from any and all liability, costs, expense, or attorney's fees incurred as a result of Grantee's exercise of rights under this agreement. Grantee shall obtain
