

B&M Turf Quote:

The Coloradoscape plan on this lot would cost \$11,950.00

A standard front and back would have 1 tree and 5 shrubs and a moderately sized sod patch in front and none of the plants in the rear yard. This would cost \$8,500 on the same lot.

I know I would rather have the Coloradoscape if I were buying a new house, hopefully this will get some traction.

Please let us know if you need anything additional.

Re: **Castle Rock – Xeric vs Standard Landscape**

**Xeric Landscape Example Front and Rear Yard:**

**\$9,325.00**

**Standard Landscape with City Standard Front Yard Install and Rear Yard per Xeric plan with Sod:**

**\$8,265 .00**

- Budgets provided are based on a Xeric landscape typical provided by City of Castle Rock for the comparison versus Standard front yard install. For budget purposes only and does not reflect an actual landscape install.
