**Town of Castle Rock Government**

Published by Caroline Frizell · April 25 ·

If you have thoughts about parking along public streets, including those in your neighborhood, your Town wants to hear them.

As Castle Rock thrives, parking along the Town's streets has become a highly desired amenity. With that in mind, it's important that parking policies are implemented consistently. That's why the Town has drafted a policy to guide parking along public streets in neighborhoods and commercial/retail areas. Your feedback is an important part of the process.

Amy Wood Fienen Here's a novel idea: stop building until you have the infrastructure in place to support it. Parking in this "town" is an utter impossibility, not a highly desired amenity. But way to spin it.

Tom Jeanette HOAs should not be allowed to supercede town code and policies as it pertains to public streets as long as the town is responsible for maintaining those streets. Therefore I would like to see the rules for on-street parking be part of town code, with a provision of "not withstanding existing neighborhood covenants ..."

Bob Exum This is one of the main reasons I sold my home that was in an HOA and move to a Non HOA controlled community. Way too much overreach.

Carol Chant Biehner It obviously doesn't matter since it's obvious that a lot of people are shopping in the downtown area, but there have been so many times that I gave up trying to shop local because I can't find a place to park. I have bad knees which restrict the amount of walking that I can do but it's not

bad enough to get handicap placard. And even if I did have a handicap placard it wouldn't do me much good because there's not any handicap parking places out there. I don't know what the answers are I wish I did, but something needs to be done if the downtown businesses are going to survive.

And while we're on the subject of downtown can someone please explain to me why around about is necessary at the intersection of Perry and 3rd? Wouldn't a four-way stop do the same thing and be a lot cheaper and a lot less confusing?

Melissa Michelle The single most irritating thing to me is when people park on the wrong side of the street in the neighborhoods. It's against the law but nobody cares - they just do what they want anyway. Lazy, inconsiderate, and honestly from what I've seen from a few it's pretty telling of their personalities as well. 😊

Mary Shea That's funny... from the highway, Castle Rock looks like one giant parking lot.

Melissa Michelle [Cathy A. Graff](#) you and Chris need to have a say in this as it's going to GREATLY affect your streets.
