Amount Requested (\$500 maximum):	\$500
Description of specific project for which funds are requested:	Douglas Land Conservancy is interested in a \$500 grant to support our educational outreach program. The funds would go to help offset the cost of presenters and educational speakers. DLC hosts hikes and speaker events on the properties that we conserve. For example, last week DLC hosted two evenings of full moon "Owl Prowls". The 70 participants enjoyed an educational presentation on owls; their unique features, the

role they play in the local ecosystem and three live owl ambassadors were available to view up close. Following the presentation, guides took the hikers out on the trail under the full moon in search of owl activity. The hikes were a great success, and the guides and the facility rental were free, but we did pay for the presentation from Nature's Educators.

---

Eligible project area for which funds are requested:

Community-based environmental and sustainability programs and activities

---

How does this project benefit Castle Rock residents?:

Douglas Land Conservancy's educational outreach programs offer the community opportunities to make meaningful connections to the open space in our region. Annually over 1,500 residents participate in our programs enjoying the health benefits of the outdoors. Additionally guided hikes and educational programs teach respect for natural resources and land stewardship, while fostering a sense of pride in our community. One of our most popular events during the year is hosted in partnership with the Town. Raptors Over the Rock had more than 400 participants, both young and old, in 2017. We plan to repeat the program in 2018 and we look forward to the addition of Reptiles Under the Rock this year.
