# **Attachment D: Income-Qualified Rebate Program - Option 2**

# In this alternative:

## The Town retains the FHC tax and offers a rebate program for qualified residents

Each qualified household would be offered an annual rebate of \$170, which is the amount Bureau of Labor Statistics data indicates a Town household pays in FHC tax annually.

**Note:** This scenario shows outcomes of offering a rebate for qualified residents without the addition of any alternative revenue sources.

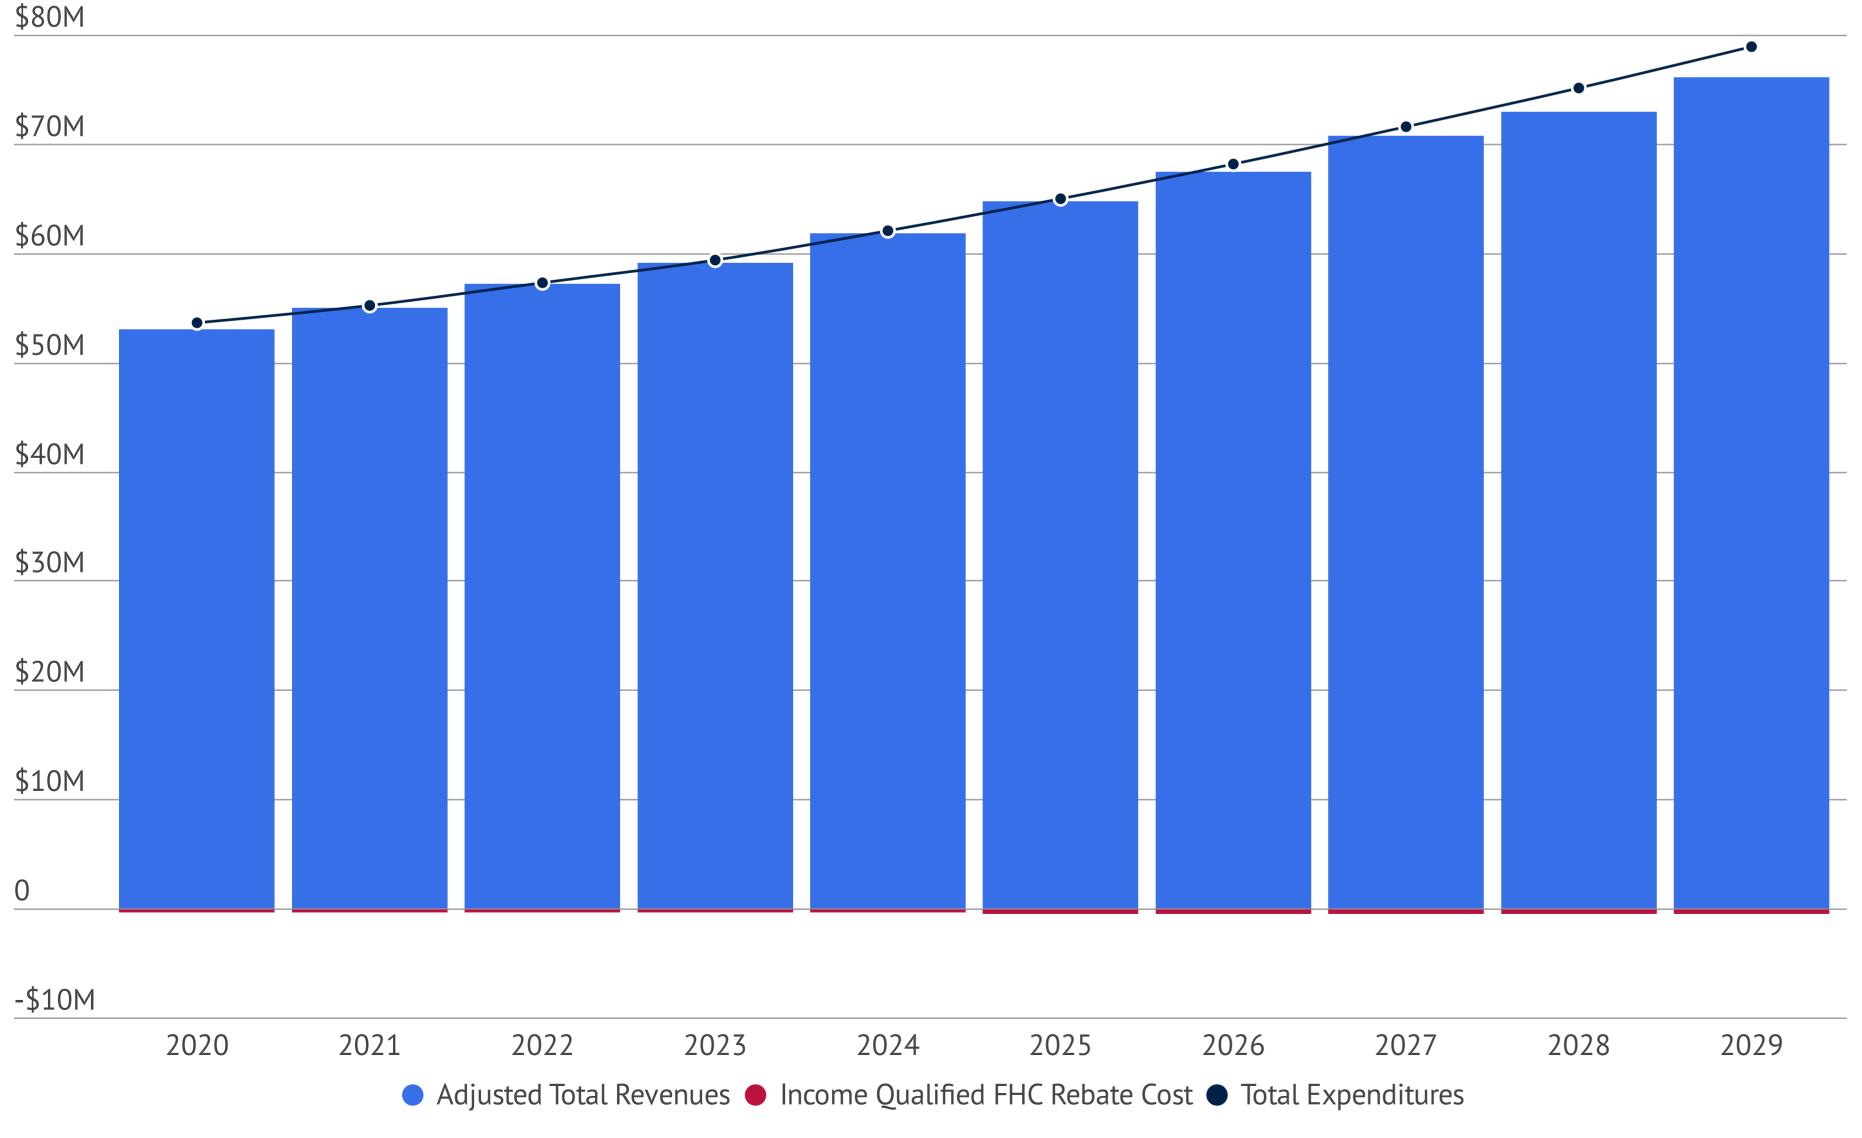

#### Rebate qualifications (2,000, or about 10% of, households used for illustrative purposes)

Cities' rebate programs utilize a variety of qualifying factors (Council could set the criteria for such a program):

- Income (50% of median)
- Senior/disabled
- Number in household

Utilizing historic (2009-2017) changes in budget categories combined with known current planning, the alternative outlined above has been applied to future planning to determine possible budget impacts to sales tax-receiving funds.

The this scenario, the cost of the FHC tax rebates would be split among all three sales tax-receiving funds

# **Based on the assumptions included:**

The net gain/(loss) by fund in 2029 is projected to be: 

General Fund: (\$2,885,734) **Transportation Fund: (\$421,920) Community Center Fund:** \$160,523

# ì

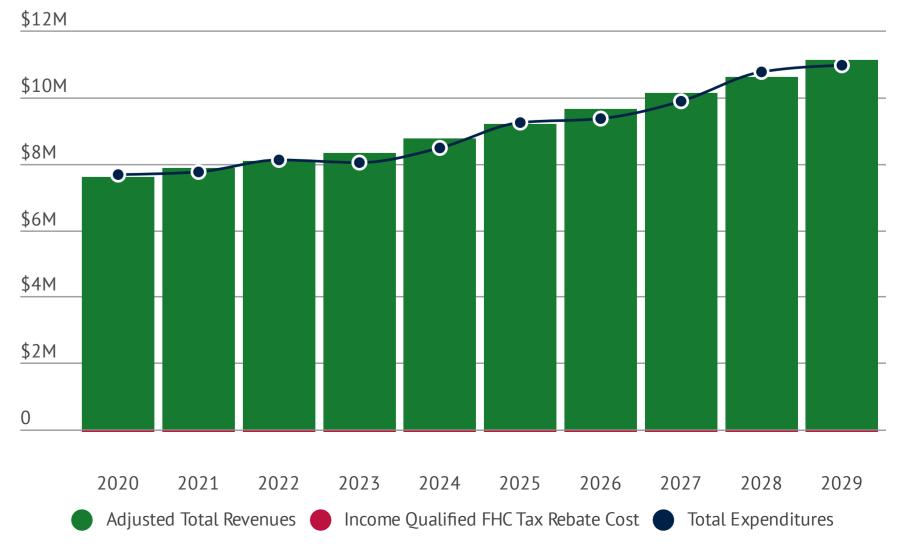

General Fund: (\$8,616,761) **Transportation Fund:** \$3,245,664 **Community Center Fund:** \$1,027,406
