## **Preamble**

Centennial Airport is one of more than 70 public-use, general aviation airports in the state of Colorado. The facility was opened in 1967 and has been owned and operated by the Arapahoe County Public Airport Authority (ACPAA) since 1975. The Airport's location along Interstate 25 next to the Denver Tech Center and a few miles south of downtown Denver makes it a key element of the economic vitality of the Denver metropolitan area. Numerous companies have chosen to locate their corporate headquarters near the Airport to take advantage of the convenience, facilities, and services that the Airport has to offer.

Centennial Airport is home to more than 800 fixed-based aircraft. This ever-increasing number includes a mix of single-engine, multi-engine, turboprops, jets, and helicopters. Four fixed-base operators (FBOs) provide a full spectrum of services for both the locally based and transient pilot communities. With approximately 320,000 annual take-offs and landings on three runways, Centennial Airport ranks among the busiest general aviation airports in the United States. The Airport's mission is safety, security and service for the general aviation community.

In 1998, ACPAA initiated a voluntary FAA 14 Code of Federal Regulation (CFR) Part 150 Noise Compatibility Program (NCP) to analyze and examine community noise impacts from Centennial Airport aircraft operations. The need for a plan was due in part to the rapid commercial and residential growth in the airport environs and the on-going increase in airport operations. The outcome of the five-year study to develop a plan produced a list of 12 recommendations. Those recommendations included several key actions, such as establishing a Fly Quiet Program, installing an aircraft noise monitoring system, and creating an advisory committee to address aircraft noise issues impacting the communities surrounding Centennial Airport and to monitor programs implemented as a result of the adoption of the ACPAA Noise Compatibility Program, including the Fly Quiet Program guidelines and the Noise Monitoring Program. That committee became known as the Centennial Airport Community Noise Roundtable (CACNR).

CACNR was formed in May 2009 to make recommendations to ACPAA to reduce and mitigate the noise impacts that users of the airport create on surrounding communities. Through its membership of locally appointed community representatives, the ACPAA, airport users, and key staff from the Federal Aviation Administration (FAA) and the Colorado Department of Transportation (CDOT) Division of Aeronautics, CACNR acts as a forum that attempts to achieve cooperation between all of these groups in accomplishing airport noise reduction. CACNR held its first formal meeting on July 15, 2009, and at that time, its purpose was further delineated as shown below, with the adoption of a statement of purpose developed by an ACPAA-retained consultant.

This Memorandum of Understanding (MOU) formalizes an agreement among the Members to officially create CACNR. The document specifies the purpose and objectives of CACNR and provides guidance on membership criteria, operations and support, and the procedure to amend the MOU.

This document shall be considered the foundation document for the creation of CACNR, replaces all previous creating documents, and is intended to act as the instrument that provides focus and guidance for the on-going activities of the organization.

## **Article I. Creation of the CACNR Organization/Purpose/Objectives**

### **1. Creation of the Organization**

This MOU formally creates an advisory committee to be known as the Centennial Airport Community Noise Roundtable (CACNR) for the purpose and objectives stated below via the Agreement and Membership criteria stated herein.

2. Purpose

CACNR is a voluntary association of ACPAA, neighboring communities, federal and state agencies, and airport users, created to monitor programs implemented as a result of the adoption of the ACPAA Noise Compatibility Program, including the Fly Quiet Program guidelines and the noise monitoring program, and to address aircraft noise issues impacting the communities surrounding Centennial Airport. In an interactive, and collaborative open forum, CACNR will seek to identify the dimension of the noise issues, discover possible mitigation actions, find opportunities for implementation, and evaluate the effectiveness of the mitigations. While CACNR's initial efforts in the development and implementation of a Work Program will be directed to noise issues associated with current aircraft operations, consideration of future noise issues also will be addressed, including interaction with noise roundtable activities at other airports.

3. Objectives

A. Continue to organize, administer, and operate CACNR to develop, evaluate, and pursue recommendations for implementation of reasonable and feasible policies, programs, procedures, and other relevant actions by the appropriate agencies to reduce the noise impacts from aircraft operations at Centennial Airport.

B. Maintain CACNR as a focal point of information and discussion between local, state, and federal legislators and policy makers regarding noise impacts in local neighborhoods and communities from airport/aircraft operations.

C. Develop and implement a CACNR Work Program to further its purpose, including but not limited to:

- 1) analyzing and evaluating the impacts of aircraft noise on affected communities, and
- 2) making recommendations to appropriate agencies, including ACPAA, regarding implementation of effective aircraft noise mitigation actions.

D. Maintain communication and cooperation between CACNR, ACPAA, airport staff, and local governments (cities, towns, and counties) regarding:

- 1) local agency land use and zoning decisions within noise-sensitive and/or overflight areas, while recognizing local government autonomy to make those decisions, and
- 2) decisions/actions that affect current and future on-airport development, while recognizing ACPAA's autonomy to make those decisions.

**ARTICLE II. Terms of Agreement**

The signatories to this MOU agree to:

A. Accept in concept and spirit the formal creation of and continuing operation of CACNR as described in Article I herein.

B. Continue to work cooperatively with all stakeholders to reduce noise impacts on affected neighborhoods and communities from aircraft operations at Centennial Airport.

C. Provide the funding as determined by CACNR, to enable CACNR to carry out its on-going efforts to achieve effective aircraft noise reduction and mitigation as addressed in this Agreement.

D. Inform their respective constituencies of CACNR'S activities and actions to reduce aircraft noise impacts.

E. Not support actions that shift noise related to aircraft operations at Centennial Airport from one community to another.
