**Subject:** Pigs, goats and duckd

I just saw the article in the News Press about keeping animals in town!

This is a BAD idea! I don't need to hear goats bleating, pigs snorting or ducks quaking as I try to enjoy a tranquil yard.

Besides the noise pollution, I can only imagine the smell. Too often people don't pick up after their dogs. The odor of from livestock would be awful!

We are still a bit of a rural community, but it that rural! Save the livestock for the acreage and ranches, please.

I hope I'm not too late!
