Subject: Roundabout

Hi,

Just a quick note to beg you, please, please, please do not put a roundabout at Wilcox and South Streets. There is not enough room to make a decent roundabout...the one at Perry and Third Streets is a perfect example of a roundabout that is too small to function properly. If you don't believe me, spend a few minutes watching the one at Perry and Third when there is a lot of traffic. A four way stop would have been a LOT better, and a lot cheaper too. ■

Thanks for listening!

Geoff Haaland
