Title: Update: Residential Unit Data (through June 30, 2019)

Executive Summary

On June 4, 2019, staff presented an updated residential unit data report through the first quarter of 2019. This update includes data through the second quarter, ending on June 30, 2019. The data outlines the maximum zoning entitlements and growth areas approved by Council and provides an update on the pace of activity in each area of Town. The current estimates show an approximate population of 70,130, which is an increase of about 702 persons from the previous quarter. There were 231 additional single family and 0 multi-family homes receiving certificates of occupancy within the second quarter of this year.

Discussion

Each planned development (PD) on **Table A** shows the PD's name, date of current zoning approval and corresponding PD number depicted on the Town's Zoning District Map to help identify the areas included with the unit counts. The map in **Attachment A** shows the geographic location of each PD area. **Table B** compares estimates for each quarter. Please note the same qualifiers apply as noted in previous summaries.
