ATTACHMENT E

February 21, 2019

Ms. Lisa Darling Executive Director South Metro Water Supply Authority 8400 East Prentice Avenue, Suite 315 Greenwood Village, Colorado 80111

Dear Lisa:

Thank you for your recent email communications regarding the ECCV-SMWSA Barr Lake Pipeline Enlargement Agreement dated March 25, 2005 (the "Pipeline Agreement") and sums owed to East Cherry Creek Valley Water and Sanitation District ("ECCV") from the South Metro Water Supply Authority ("SMWSA") thereunder. I understand your need to perform due diligence. That said, I want to reemphasize that I originally communicated with Rod Kuharich and SMWSA legal counsel, Jim Hunsaker in July 2007, and included the spreadsheet detailing the estimated balance owed by SMWSA (see first attachment to this correspondence). I again reached out to Eric Hecox and Rick Marsicek in June 2014 (see second attachment to this correspondence). I also notified you of the outstanding amount due in August 2017 (third attachment).

At this point, so many years later, ECCV may not have retained detailed back-up for all costs reflected in the spreadsheets previously provided, although you will find additional detail in the attachments to this letter. However, the fact remains that ECCV has never been paid under the Agreement's terms, paragraphs 3.1. (ii) and 3.4., for any capacity beyond the original initial payment of \$5,991,488. Please note that this amount did not even cover the cost of oversizing, much less the 25% that was to be paid on top of the incremental cost at the time of construction.

I have previously offered as follows regarding the payment and would like to reiterate my prior offer today:

The contract basically says SMWSA would pay the incremental cost of oversizing the line plus 25% at the time of construction. Then, when SMWSA went to use the line, it would pay the difference between its pro-rata cost of everything (including design and land) plus 10% and what it had paid to date. The spreadsheet shows that the pro-rata cost plus 10% is less than the incremental plus 25%. Our suggestion would be to pay an amount to achieve the pro-rata plus 10% at this time, and then no additional funds would be owed when SMWSA starts using the line. That amount is labeled in the spreadsheet that was previously provided to you as "Future Payment", and was in the amount \$1,892,903.

Sustaining our community by providing safe, reliable water

ECCV-SMWSA Barr Lake Pipeline Enlargement Agreement February 21, 2019 Page 2

At the time the spreadsheet was prepared, SMWSA's total share of the cost was \$7.8 million (for 5.728 MGD). When the project began it was anticipated SMWSA's share would be \$9.4 million (for 6 MGD).

Since the time the spreadsheet was prepared and also since I contacted you, ECCV has been able to find further documentation on the costs of engineering and easements for the waterline. Also, the Arapahoe County Water and Wastewater Authority (ACWWA) assigned its capacity in the waterline to ECCV and therefore its capacity and costs have been removed from the calculations.

The revised costs are shown in the updated spreadsheet labeled January 2019 Update. Based on the updated information, SMWSA's allocated capacity is now 3.978 MGD and a payment of \$1,184,673.22 is owed at this time.

If SMWSA chooses not to make any further payments, SMWSA's capacity would drop to 3.065 MGD, as shown in the spreadsheet.

I hereby formally request that payment of the sum of \$1,184,673.22 by paid to ECCV on or before May 1, 2019 so we can close-out this overdue matter. Absent receipt of payment on or before May 1, 2019, or without a payment arrangement in place, ECCV will adjust SMWSA's capacity in the pipeline per the Agreement. If you want to discuss this item, please let me know and we can arrange a meeting.

Thank you for your consideration.

Sincerely,

Maint

David J. Kaunisto District Manager

ATTACHMENT 1

From:Dave KaunistoTo:James M. Hunsaker; Rod KuharichDate:7/27/2007 2:56 PMSubject:ECCV Northern WaterlineAttachments:Document.pdf

Attached is a spreadsheet that shows the amount needed to true up SMWSA's capacity in ECCV's Northern Line. The calculations are based on the 5.728 MGD of capacity SMWSA has purchased to date. I thought it best to true this up in accordance with the contract, and deal with the excess 0.278 MGD of capacity that Castle Pines North has expressed an interest in separately.

There is a wrinkle from what was anticipated in the contract. The contract basically says SMWSA would pay the incremental cost of oversizing the line plus 25% at the time of construction. Then, when SMWSA went to use the line, it would pay the difference between its pro-rata cost of everything (including design and land) plus 10% and what it had paid to date. The spreadsheet shows that the pro-rata cost plus 10% is less than the incremental plus 25%. Our suggestion would be to pay an amount to achieve the pro-rata plus 10% at this time, and then no additional funds would be owed when SMWSA starts using the line. That amount is labeled in the spreadsheet as "Future Payment", and is in the amount \$1,892,903.

SMWSA's total share of the cost is \$7.8 million (for 5.728 MGD). When the project began it was anticipated SMWSA's share would be \$9.4 million (for 6 MGD).

If SMWSA chooses not to make any further payments, SMWSA's capacity would drop to 4.3 MGD, as shown in the spreadsheet.

The cost of easements and engineering are not yet final, but I believe these numbers are pretty close, and I wanted to get this information out to you so the SMWSA members can make decisions and plans for the additional payment or decrease in capacity.

Please let me know if you have any questions or need additional information.

Dave Kaunisto East Cherry Creek Valley WSD 303-693-3800

Dave Kaunisto - Fwd: ECCV Northern Waterline

From:	Dave Kaunisto
To:	Eric Hecox; Rick Marsicek(rickmarsicek@southmetrowater.org)
Date:	6/11/2014 2:51 PM
Subject:	Fwd: ECCV Northern Waterline
Attachments:	Document.pdf

Rick and Eric,

To follow up on the conversation I had with Rick a few minutes ago, the email that was sent in 2007 to Rod and Jim provides details on what is the remaining amount South Metro owes on the Northern Waterline, along with the spreadsheet that was attached to the original email. ACWWA's share can be removed from the numbers to get the amount owed today. The reference to Castle Pines North is a reflection of that fact that CPN was expressing an interest at that time in acquiring some of the capacity in the pipeline.

Please let me know if you have any questions. Thanks.

Subject:	Fwd: ECCV Northern Waterline
Attachments:	ECCV Northern Waterline

Hi Lisa,

Attached is an email that was sent to Rod Kuharich and Jim Hunsaker back in 2007. The email deals with the remaining amount owed by SMWSA for its capacity in the ECCV Northern Waterline. I believe I have provided these numbers to SMWSA a few times since this original email. ECCV has not actively pursued collecting this amount up to this point, but I believe we should set a due date for the payment in January 2019, recognizing that some members are far along in their budgeting process for 2018.

Since this email was sent, ACWWA assigned its rights to capacity in the waterline under this agreement to ECCV, and I believe SMWSA took formal action to recognize that assignment. Therefore the total amount due is decreased by ACWWA's share. I believe ACWWA originally signed up for 1.75 MGD.

Please let me know if you have any questions. If you'd like, we can discuss this with the SMWSA at its next meeting. Thanks.

Dave
