Commissioner Comments and Questions

- Was there a train accident here in Castle Rock last week? No, because of volume down the rail lines, we had a train stopped on the tracks here in Town for about an hour and a half.
 - The increased volume of trains on the track was due to the flooding back east.
 - Due to where it stopped, the train blocked all three railroad crossing here in Town (2nd, 3rd and 5th streets).
 - While waiting for permission to travel, the train crew timed out and had to wait for relief crews to move the trains.
- Were there any major issues with the blizzard? There were very few issues and these were all resolved. The whole incident was well managed.
 - Ms. Dews gave kudos to both Chief Croom and Chief Cauley for how they handled the event.
 - 70% of motorist who were sheltered were not from Castle Rock.
 - This was a short-lived event. We might have encountered more issues if it had been longer in duration.
 - The various agencies will meet to discuss preparation for future incidents.

Mr. Menard made a motion to adjourn the meeting; Mr. Moreland seconded the motion. All were in favor.

The meeting adjourned at 3:48 p.m.
